COUNTRIES

COORDINATION & SUPPORT ACTION

The project brings stakeholders together to coordinate, network, share knowledge, and develop common strategies, rather than conducting research itself.

OBJECTIVES & PATHWAYS TO IMPACT

THREE CONNECTED STEPS

1

ENGAGE

Build an EU-wide crop breeding R&I community and integrate stakeholder needs.

2

IDENTIFY

Map research gaps, bottlenecks, and infrastructure needs and propose long-term funding models.

3

DESIGN

Lay the foundations for sustainable European collaboration, governance and funding

EXPECTED RESULT

KEY OUTCOMES

A European roadmap and implementation strategy

for a coordinated crop breeding research & innovation (R&I) funding network.

PUBLIC + PRIVATE
ONE SHARED DIRECTION

A shared direction for European crop breeding research and innovation
